GDLS iSupplier Portal Login Process

Introduction to iSupplier Portal

- Oracle utilizes an entirely electronic interface called "iSupplier Portal". All purchasing documents and account information from GDLS are communicated exclusively on this portal.

- All suppliers will need to have an Security Authentication and Oracle iSupplier account registered with GDLS. These usually happen automatically when a supplier is first set up in our purchasing system. No special software aside from Microsoft's Internet Explorer internet browser is required to access this system.

    *Note: GDLS Information Security Policy locks user accounts after 1-year of inactivity and eliminates user accounts after 3-years of inactivity.

- Getting Help

    ↗ This guide provides login instructions for access through Security Authentication and into Oracle iSupplier. In the event that you have changes to your account registration, please contact your GDLS buyer. For further questions/concerns, help is available via the following:
    ↗ Email: isupplier@gdls.com
   ↗ Help Number: 1-586-825-4387
